

A GREAT NO-COST BENEFIT FOR YOUR EMPLOYEES

- Would you like to provide a true benefit for your employees at no cost to your company?
- Do you have employees expecting a baby or who already have young children?
- Did you know that, as a member of the Parsippany Area Chamber of Commerce (PACC), your employees are now eligible for quality, reduced-rate child care right here in Parsippany!

Little Blessings Child Care, LLC is a small Parsippany-based child care center with low staff-to-child ratios and a wonderful atmosphere for young children. We are a state-licensed Center with all the benefits of year-round care, provided by qualified, trained and caring staff. Little Blessings participates in the NJ Subsidy program, and we're a participating provider in the Bright Horizons Back Up Care Advantage Program. We pride ourselves on being able to give each child the personal attention they deserve throughout their childcare years. At the current time, Little Blessings has limited openings for infants and toddlers.

As a member of the PACC, Little Blessings is proud to offer your employees a 10% reduction in our monthly tuition rates. This benefit could save each employee over \$100 every month! As their employer, you know how invaluable having dependable child care can be in keeping your employees at work and focused on their jobs. Little Blessings wants to provide your employees with the peace of mind that they deserve, knowing that their children are safe, happy and learning. We understand the needs of working parents with young children, and we know just how important their decision in choosing a child care provider can be.

Enclosed please find a flyer with general information regarding our Center. You are welcome to copy this information and distribute to anyone you know who might be interested. I would also like to invite you or a member of your staff to visit Little Blessings for a personal tour, so that you can see just what quality child care is all about!

Thank you.
